Downy Woodpecker	2	b	House Finch	2	b
Hairy Woodpecker	1	t	American Goldfinch	7	t
Northern Flicker	4	B	TOTAL	37	

Notes:

1. Habitat consisted of cottonwood; ponderosa pine; various species of shrubs including hawthorn, alder, snowberry; grasses and forbs in the Clark Fork River riparian zone.

2. Breeding Status:
B—direct evidence
1. Occupied nest—adults entering or leaving nest site; adult incubating or brooding.
2. Recently fledged young, incapable of flight or downy young of limited mobility.
3. Adults attending young—feeding, carrying food or fecal sac.
4. Used nest or eggshell found, evidence must be convincing.
5. Nest with clearly identifiable young.

b—indirect evidence
1. Singing males or territorial birds in suitable habitat during breeding season.
2. Courtship behavior or copulation
3. Adults visiting a probable nest site.
4. Agitation behavior, distraction display, or anxiety call from adult.
5. Nest building
6. Physiological evidence such as brood patch.

t—no evidence of breeding: transients, migrants or wide-ranging species.
